

People Serving Oklahoma. Since 1913.

SO has been a corporate citizen of this state and its communities for more than 90 years.

PSO was incorporated just six years after statehood, when the small electric companies in Vinita, Tulsa, Guthrie, Coalgate, Lehigh and Atoka merged.

Today, PSO serves some 514,000 homes and businesses – 1.4 million people – in 230 cities and towns across the state: Adair to Atwood, Hydro and Idabel to Elk City, Tulsa and Tuskahoma.

We're proud of our long history of service to Oklahoma. We're even prouder to help power into the future the state we've always called *home*.

We're PSO: People Serving Oklahoma since 1913.
